Vittorio Francesco Ardente

Junior software developer & IT technician

Dalmine (BG), Italy | vittorio.ardente.07@gmail.com | linkedin.com/in/vittorio-ardente-812775388 | github.com/Vittorio-Francesco-Ardente

PROFILE

Junior software developer and IT technician with a diploma in Computer Science and Telecommunications (94/100). I have hands-on experience with company databases, data automation and digital platforms, gained through two internships. I work methodically, precisely and with attention to detail.

EXPERIENCE

Sun-Fai, Data and shared energy

16 June - 4 July 2025

Dalmine (BG), 75-80 hours, Digital energy platforms

Development on the Ardaké monitoring platform, automation of data flows in Excel and technical documentation.

- **Ardaké platform:** New features for monitoring consumption and production.
- **Data automation:** Excel workflows that reduce manual work and errors.
- **System protocols:** Understanding and handling communication between the platform's systems.
- **Testing and debugging:** Checking features and fixing the issues that came up.

I.P.S. Informatica S.r.l., Databases and business software

10-14 June 2024

Bergamo (BG), 40 hours, Databases and business software development

A week on real data and applications: company databases with SQL Server, business software components in VB.NET and TCP/IP networking.

- **Company databases:** Querying and managing databases with SQL Server.
- **Business software components:** Developing and maintaining components in Visual Basic / VB.NET.
- **Data modelling:** Attention to data structure and integrity.
- **TCP/IP networking:** Support with network configuration and troubleshooting.

EDUCATION

ITI G. Marconi, Computer Science and Telecommunications

2021-2026

Dalmine (BG), Computer Science track, Final grade 94/100

Five years of computer science, systems and networks, TPSIT and telecommunications. Diploma with 94/100 and first place at the CIVISUN school hackathon.
